~~LIVER~~

ICD LSA 1800990000

No Complications

27 January 2003

Diagnosis:

1. Blood transfusion 3 units
2. Anaemia secondary to anti-viral treatment
3. Recurrent Hepatitis C in graft
4. OLT for Hepatitis C 1996
5. Previous haemophilia

Medications on discharge: No change

Follow up Hepatitis C Treatment Clinic.

Mr Black was admitted for a transfusion of 3 units of blood which proceeded without complication. Bloods showed haemoglobin 82, MCV 102, white cells 2.8, neutrophils 1.5, platelets 92, PT 9, urea 9.2, creatinine 162, bilirubin 14, ALT 30, Alk Phos 101, Gamma GT 120, albumin 33.

We are grateful to you for checking his bloods one week after discharge and faxing us the results. We will arrange for him to be reviewed in the clinic to discuss recommencing antiviral therapy.

Dr Josephine Grace
Staff Grade to Dr Alastair MacGilchrist
