LANARK

Admission date: 23/04/2002
Discharge date: 24/04/2002
Consultant: Andrew Bathgate

Ward: 20

Our reference: KP/LV

Name: DAVID BLACK

Number: 0105371564
CHI no: 0105375292
D.O.B.: 01/05/1937

Address: 1 ST TEILING
LANARK
ML11 7HY

LIVER /
ICD LSA 1200990000

No Complications

30 April 2002

DIAGNOSIS;

1. Hepatitis C
2. OLT for hepatitis C - April 1996

Mr Black was admitted for his routine annual biopsy. Ultrasound scan was satisfactory, and did not show dilated ducts. Liver biopsy was performed percutaneously with no complications. Liver biopsy result is awaited. This will be reviewed in clinic. Although Mr Black has previously been reluctant to have any medical treatment for his recurrent hepatitis C, this decision will be reviewed, and he did say to me that he may be more amenable to the idea as he is reducing his work-load at this point in time. We will see him in clinic.
