PLEASE WRITE OVER YELLOW LETTERS

30th June, 1975

Dr. L.D.S. Rogan,  
3 Hilton Terrace,  
Bishopbriggs.

Dear Dr. Rogan,

Rev. David Black, 30 Foscally Ave. Bishopbriggs, Glasgow

Your patient attended on the 26th June complaining of a pain in the left knee. This had not been associated with injury, but on clinical examination I felt he had a haematoma rather than a haemarthrosis. He had Factor VIII replacement therapy as an out patient on 26th & 27th June and I trust this controls the problem. If the symptoms had not settled he would have attended again today, but as he was leaving to go on holiday I did not bring him back for a final review.

I will see him when he returns from holiday.

Yours sincerely,

J.F. Davidson  
Consultant Haematologist
