Dr Wilson,
Meadowpark Street,
Glasgow.

Dear Dr Wilson,

REV. DAVID BLACK, 12 Onslow Drive, Glasgow.

Your patient attended for review recently. I am pleased to find that he is keeping fairly well. There have been no bleeding problems.

I am in the process of carrying out further investigations on his haemostatic abnormality: the diagnosis remains haemophilia.

I understand he is likely to require a dental extraction in the near future. I will be pleased to admit him to hospital for replacement therapy at the time.

I will see him again in July.

Yours sincerely,

J. F. Davidson.
