Dear Mr Laing

I have now received a letter following your recent admission to ARI with jaundice earlier in the month. The Doctors have recommended that we refer to the General Surgeons for further assessment. Although they did not find any gallstones when you had a scan, they still feel this may be the underlying problem. Therefore I have taken the liberty of referring you to the Hospital for further assessment.

Should you have any queries regarding this, please do not hesitate to contact me at the Surgery.
Yours sincerely

DR M E JOHNSTON
