Dear Dr. Davda,

Eileen O'Hara:

I enclose a copy of our clinical summary on this lady. Mr. Dimitri and I have discussed her further. We have agreed that she is indeed a candidate for mitral valve replacement but Mr. Dimitri feels that it might be worthwhile looking at her coronary circulation again before she proceeds to this.

I will therefore put her on my waiting list to come in for a day or two to Ward 66 to have this done and I will give the results to Mr. Dimitri.

Kind regards,

Yours sincerely,

A.R. Lorrimer,  
Consultant Physician and Cardiologist

Mr. W.R. Dimitri,  
Consultant Cardiac Surgeon,  
Ward 65,
