Professor A R Lorimer
Department of Medical Cardiology
Glasgow Royal Infirmary

Dear Professor Lorimer *Row*

Eileen O'Hara, 56 Menzies Road, Glasgow, G21 3LY.
DOB 09 10 30.

Thank you for re-investigating this lady who has a failing Wessex mitral valve prosthesis. I gather her coronary arteries were normal and I will therefore arrange for her admission to replace her mitral prosthesis. As there is a forthcoming wedding in the family at the beginning of October I will plan her admission soon after this.

Many thanks for your help in this matter.

Kind regards.

Yours sincerely

Wade
