Dr. E. McLaren
Consultant Physician
STOBHILL NHS TRUST.

Dear Dr. McLaren,

Re: Eileen O'Hara, dob 9.10.30. Unit No. 93961
56 Menzies Road, Glasgow G21 3LY.

With reference to your letter dated 26.10.94. I went through all the medical records of Mrs. O'Hara when she attended Glasgow Royal Infirmary and I enclose a photocopy of one report which specified hepatomegaly of 3 cms. Splenomegaly was not noted. From the records it seems that it was not being followed up.

According to our notes in January 1995 she had arranged liver function tests but the liver was not found to be enlarged at that time.

I hope this answers your query.

Yours sincerely

Dr. A.N. Davda
