Professor A. L. Bloom

Dr. Peter R. Foster,
Scottish National Blood Transfusion Service,
Protein Fractionation Centre,
Ellen's Glen Road, Edinburgh EH17 7QT.

Dear Dr. Foster,

Re: Calcium Stabilised FVIII

Thank you very much for your letter and I would be delighted if you include our data in the paper that you are writing. With regard to authorship it would certainly be nice if Dr. Greedharry is included. With regard to including my own name, I do not feel strongly about this. I would be honoured to be associated with the work but on the other hand if you already have a whole string of authors then I would be quite content with the usual acknowledgement at the end. Can I leave this up to you? I would be most interested in reading a draft version when you have prepared it. Dr. Greedharry is in Newcastle at the moment, but I will pass on your letter etc when he returns. If there is anything else we can do please let us know.

With all best wishes,

Yours sincerely,

A.L. Bloom

c.c. Dr. P. Greedharry, Haematology Dept., UHW.
